✦ What a primary care visit costs

$30

Preferred

Primary care

$30 with a standard doctor

Preferred doctors meet the highest standards for clinical quality and outcomes, so your copay is lower. Standard doctors are covered too, usually at a higher copay.

✦ What a primary care visit costs

$0

no cost

A 30-minute visit

In person or by video, and you keep the plan

One thing to know up front: there's a **$30 fee for a missed appointment**, so please cancel ahead of time if your plans change.

✦ How your costs will work

What you pay depends on whether you see a Preferred or Standard provider.

Preferred Highest quality standards, lower copay

Standard Covered, usually a higher copay

Primary care	Preferred	$0
	Standard	$30
Virtual care		$0
Urgent care		$100
Specialist	Preferred	$30
	Standard	$300
Emergency room		$350

These copays only apply **in network**. Out of network you pay a share of the bill instead of a flat copay, and the provider can bill you for the rest.
